Emily--

We received the returned permit fee statement today with the envelope stamped "No longer at this address." (It took three months for it to come back.)

Could you please change the status of this site to retired? You could print this e mail for the file. The operator submitted an LMO in the late 90s or so which was later changed to an SMO. The Forest Service did some NEPA work, but nothing was ever finalized. Although there's some old disturbance, I don't believe this operator did anything, or if they did it was minimal. Their business registration expired in 2005, and now we don't have a valid address. This is why it should be retired.

Thank you.
